**Reference: Justification for a Special Use Permit  
T-Mobile Site VG08659 Chapman & Thelma  
1501 E. Charleston Boulevard  
APN 139-35-402-001**

Spectrum Surveying & Engineering, on behalf of T-Mobile USA Inc., requests the approval of a Special Use Permit for a proposed Wireless Communication Facility (Monopalm) the location meets the required residential adjacency setbacks. The proposed site location is at 1501 E. Charleston, Las Vegas, Nevada 89101; parcel number 139-35-402-001. This geographic location was selected by T-Mobile USA Inc. as a desirable location to work within their existing network of antennas and towers.

T-Mobile USA Inc. proposes to construct a 76' Monopalm with fronds not to exceed 80' and a 15' x 27.2' equipment lease area enclosed by a decorative block wall enclosure with a chain link cage over the top of the block wall. The subject parcel is zoned Limited Commercial (C-1).

The proposed antennas are required to provide adequate coverage to customers using wireless services in the area. Businesses, governments, emergency services and the general public are all users of cellular technology. The installation of this facility will enhance service coverage and reliability for users in the City of Las Vegas. The Federal Communications Commission determined the wireless system serves the national interest and directly and indirectly benefits all members of the public.

The approval of the Use Permit is consistent with the zoning code. In addition the Use Permit will not be detrimental to the health, safety or general welfare of persons residing or working in the neighborhood, or injurious to property, resources, or improvements in the vicinity, nor will create any additional impact to the traffic system in the area.

Best regards,  
Spectrum Surveying & Engineering
